

AcuRev 1200 Series

Rail-mounted Single phase Energy Meter

ISO9001 Certified

DESCRIPTION

AcuRev 1200 series rail-mounted single phase energy Meters has a small size and high accuracy, can access to 80A current directly, it is ideal for use in distributor and tight spaces. The meter is equipped with an easy to read liquid crystal display (LCD) which displays all the important information. It is ideal for building energy management systems, energy monitoring and energy metering systems.

APPLICATIONS

- Commercial Complex/Mall
- Apartment/Condominiums
- Hospitals/Public Services
- Hotels/Office Buildings
- Tenant Submetering/Billing
- Data Centers
- LEED Projects
- Energy Management Systems
- Industrial and Utilities Applications

FEATURES

- Comply to IEC62053-22 classes 0.5S Measurement Standard
- Small size, DIN rail mounting
- Direct metering up 80A
- Support active / reactive energy pulse output
- Support multi-rate features: 4 rates, real-time clock
- 7 digits backlit LCD display
- Facilitate communication, RS485 interface, infrared interface; MODBUS-RTU protocol
- Easy to install, easy to meter reading, less set, easy maintenance and replacement (separate base and header design)
