

Power and Energy Management Starts with MEASUREMENT

Measurement leads to Knowledge... **Knowledge** leads to Action... **Action** leads to Improvement...

As the need to more closely understand and manage power and energy consumption grows, you need 24/7 monitoring that is accurate, reliable and cost effective.

Accuenergy is a growing leader in permanent power and energy monitoring equipment and software. Our Acuvim II and Acuvim-L series multifunction power meters bring high quality yet low cost metering and monitoring to any application or budget. Check out the Accuenergy lineup today and see the difference for yourself...
